

iPhone 13, 13 mini & 13 Pro Max Preview

About This Resource

This resource contains pixel-precise vector renders of the iPhone 13 & 13 mini in Pink, Blue, Midnight, Starlight and (PRODUCT)RED and the 13 Pro Max in Sierra Blue, Silver, Gold and Graphite color variants.

How do I use this?

Use the renders to show off your app within an iPhone 13 device. To change the screenshot, double-click the layer named **'Screenshot here!'**. This opens a Smart Object. Place your artwork or app screenshots in this canvas. When you're done editing, save your changes and return to the main PSD file to see your screenshot on the iPhone 13 screen.
